

BPW - THE QUALITY FACTOR

BPW Training Seminars

One of the key requisites for ensuring the safe operation of BPW axles and suspensions is maintenance carried out professionally. This is why we have been offering our BPW training seminars for a number of years now. This successful concept has become a real hit, as many vehicle manufacturers, fleet operators, repair stations, parts centres and dealers take advantage of the seminars we offer. Although this really comes as no surprise they can all learn everything they need to know about BPW technology.

We can also tailor the courses to your particular requirements if you prefer. All training normally takes place at BPW Axles in Johannesburg, and once a year in the main centres in South Africa. Training is also scheduled in some of our neighbouring countries.

BPW Training Courses Information – 2012

Heavy axle program

Axle and suspension maintenance – 2 day course

This course covers the evolution of axle and suspension systems over the last ten years, and deals with maintenance and servicing issues. The course carries an examination on the second day in the afternoon.

Theory:

The focus areas are hub systems, drum brake, disc brake, air suspensions, mechanical suspensions and turntables. A certificate is issued to all participants who have successfully passed the exam. The pass mark is 60%.

Practical: Drum brake axles

The focus areas are:

- Correct setting of automatic slack adjusters and brake chambers
- Assembly of camshaft and assembly kit
- Stripping and assembly of the brake foundation
- Stripping and assembly of ECO^{Plus} and ECO^{Plus} 2 hub assemblies
- Greasing intervals on axles
- Correct torque settings on axles and suspensions

Course fee - R 1200.00 per person excluding VAT.

BPW - THE QUALITY FACTOR

BPW Training Program – 2012

February 7-8	Johannesburg	Axle and suspension maintenance
February 20-24	Maputo, Mozambique	
March 6-7	Johannesburg	Axle and suspension maintenance
March 27-28	Windhoek, Namibia	Axle and suspension maintenance
April 11-12	Johannesburg	Axle and suspension maintenance
April 17-18	Cape Town	Axle and suspension maintenance
May 6-12	Dar es Salaam, Tanzania	
May 22-23	Durban	Axle and suspension maintenance
June 5-6	Johannesburg	Axle and suspension maintenance
June 19-20	Polokwane	Axle and suspension maintenance
July 3-4	Johannesburg	Axle and suspension maintenance
July 17-18	Port Elizabeth	Axle and suspension maintenance
August 14-15	Johannesburg	Axle and suspension maintenance
August 28-29	Vryheid	Axle and suspension maintenance
November 13-14	BPW	Axle and suspension maintenance
November 27-28	East London	Axle and suspension maintenance

Axle and suspension maintenance – 2 day course

The dates and venues are subject to revision and will always be updated on the website.
